In compliance with the Middle States Accreditation requirement that all institutions of higher education assess student learning in general education courses prior to degree completion, Garrett administers an Outcomes Assessment test in April and May for its prospective graduates (degree awards only). Although a student's performance on the Outcomes Assessment test will not alter his or her graduation status, it is an institutional requirement.

My advisor has reviewed this career advancement program sheet with me in its entirety, and I understand what is required for the completion of this degree in Juvenile Justice.
