BUSINESS & INFORMATION TECHNOLOGY

Garrett College offers a number of well-defined degree and certificate programs designed to prepare professionals for success in the rapidly changing world of Business & Information Technology. Our students receive quality training from instructors with significant instructional and practical experience in their respective fields.

PROGRAMS OF STUDY INCLUDE:

- Business Administration
- Business Management
- Computer Applications for Business
- Computer Repair/Network Technician
- Graphic/Web Design
- Network Administration

Business curriculum at Garrett can accommodate a wide variety of interests—accounting, management, marketing, finance, and economics, just to name a few.

GC Offers Students Two Business Degree Options:

1. Associate in Arts in Business Administration.
2. Associate in Applied Science in Business Management, Computer Applications, Computer Repair/Network Technician, Graphic/Web Design, and Network Administration.

GC also Offers Specialized Certifications in the Following:

- Computer Repair Technician (A+)
- Network +
- Microsoft Office Specialist (MOS)
- Microsoft Certified Systems Engineer (MCSE)

Garrett maintains articulation agreements with several universities and can assist students in making a smooth transition to complete a bachelor's degree. An agreement with Franklin University allows students to complete three years at Garrett and a fourth year via distance learning.

The Business & Information Technology Department also offers valuable internships, both on and off-campus.
