Program Description

This program offers a professional truck driving curriculum for the purpose of qualifying students for entry level positions as drivers in over-the-road or local driving vehicles. The curriculum provides information about trucks, truck driving and the trucking industry, and the fundamentals of operating trucks and tractor trailers. No prior education or experience with trucks is required. The student, however, must meet the driver qualifications set forth by the Bureau of Motor Carrier Safety and pass the physical examination requirements established by the Department of Transportation.

Payment Policy

It is the intent of Mountaintop Truck Driving Institute to provide quality education. This is accomplished by providing both hands-on and classroom training. Near completion of training, the student is taken to test at their local Department of Motor Vehicles (DMV) or similarly-named branch of state government to obtain their commercial driver's license to hopefully secure future employment in the trucking industry.

It is the responsibility of the student to pay all tuition, fees and charges in accordance with any payment plan setup. If a student becomes delinquent in his/her payment plan, Mountaintop Truck Driving Institute reserves the right to delay or deny the student the opportunity to test at the DMV and reserves the right to drop the student from the training without a refund.

If the student is unable to secure funding with an outside entity, all tuition and fees must be paid by the end of the (4th) fourth week for the weekday program and by the end of the (8th) eighth week for the weekend program. Otherwise the student's opportunity to test at the Department of Motor Vehicles will be forfeited. The college does accept cash, check, credit card or money order.

time accrued in increments of 15 minutes). A minimum payment of \$320.00 is required in advance with any remaining balance being billed to the student.

If in the event s/he must retest at the DMV, it is solely his/her responsibility to pay the retesting fee immediately so they can be rescheduled to test. In addition, if s/he is tardy or absent to the extent that the instructor must take extra time to provide road instruction and/or provide additional materials, a \$80.00 per hour fee will be assessed (with time accrued in increments of 15 minutes).
