

Whether you love to hunt, hike, fish, take pictures, watch birds, or engage in some other activity that connects you with nature, you possess a passion for the outdoors and an interest in the proper conservation and management of our natural resources. Now, imagine getting paid to work in the outdoors! Imagine getting paid to do what you love to do! Imagine a job where you spend your days . . .

- ✓ sampling fish populations
- ✓ monitoring rare plant and animal species
- ✓ mapping plant and animal communities
- ✓ restoring eroded streambanks and degraded wetlands
- ✓ cruising timber
- ✓ managing wildlife habitat
- ✓ helping children learn about nature

Such jobs really do exist, and the Natural Resources and Wildlife Technology (NRWT) program at Garrett College can help you prepare for and find those jobs. Our graduates are employed by a variety of state and federal agencies, nonprofit conservation organizations, and private businesses, including environmental consulting firms.

Whether your goal is to get a job following completion of our degree or transfer on to a university-level natural resources program, Garrett is your best bet!
