BUSINESS & INFORMATION TECHNOLOGY

Garrett College offers a number of well-defined degree programs designed to prepare students for success in the rapidly-changing world of business and information technology

The business program provides a broad educational experience designed to develop and improve business effectiveness. Students are expected to acquire basic competence in the area of business and management and consider the responsibilities of business management in society. In addition to building a quality business curriculum, our programs focus on preparing graduates to work independently, assume responsibility, succeed as a team member, and develop critical thinking skills. Our courses incorporate the latest technologies to prepare students for the competitive workforce.

Associate In Applied Science (A.A.S)

These degree programs prepare students for career advancement after graduation. The business curriculum accommodates a wide variety of interests, including accounting, management, marketing, law, entrepreneurship, and economics.

Areas of Concentration include:

- ▶ **Business Management and Entrepreneurship**
- ▶ **Graphic/Web Design**

Internship Program

Internship opportunities are provided to students in all Business and Information Technology career advancement programs (A.A.S.) based on their area of interest.

Transfer Degree in Business Administration

The transfer program is designed for students who are interested in transferring to a four-year college or university. Currently, we have articulation agreements with Frostburg State University, Johns Hopkins University, University of Maryland University College and other Maryland state universities, as well as colleges in adjacent states including Salem International University, West Liberty University, and Franklin University.
