MATHEMATICS & SCIENCE

Garrett College offers students interested in studying in the field of mathematics or science a variety of courses that prepare for transfer to a four-year college or university. Mathematics/Science is a concentration within the Arts & Sciences program, which leads to an Associate in Arts (A.A.) degree. Our mathematics/science concentration is recommended for students interested in majoring in pre-professional programs related to the following:

- ▶ **Biology**
- ▶ **Physics**
- ▶ **Mathematics**
- ▶ **Engineering**
- ▶ **Pre-Veterinarian**
- ▶ **Chemistry**
- ▶ **Earth Science**
- ▶ **Pre-Med**
- ▶ **Pre-Pharmacy**
- ▶ **Pre-Nursing (BSN Transfer)**

The program is designed to enable students to develop mastery of the fundamental knowledge, skills, and abilities required for success in the disciplines of mathematics and science in addition to developing the capacity for critical thinking through application of deducting and inductive reasoning.

The intent of this program is to prepare students for a bachelor's degree or higher, therefore, Garrett College has established articulation agreements with a number of regional colleges and universities. Our academic advisors will assist students in appropriate course selection and offer guidance reviewing transfer requirements.
