PRE-ALLIED HEALTH

Through our Pre-Allied Health programs, Garrett College provides the required prerequisite courses that allow students to apply to the clinical phase of various health career programs.

Our programs offer unique opportunities for students to begin their studies at GC, enjoying low-tuition rates, strong instruction and faculty who believe in students and their potential to succeed.

Pre-Allied Health programs:

- ▶ Dental Hygiene
- ▶ Medical Lab Technology
- ▶ Medical Lab Assistant
- ▶ Nursing
- ▶ Occupational Therapy Assistant
- ▶ Physical Therapy Assistant
- ▶ Radiology Technology
- ▶ Respiratory Therapy

Each program's course content assists students in making a smooth transition to another two-year (or four-year) institution and prepares them to succeed in their chosen field. Garrett College also maintains a number of transfer agreements with area colleges and universities. Articulation exist with Allegany College of Maryland for all Pre-Allied Health Programs.

Admissions to these programs upon transfer is very competitive. Garrett College's 13:1 faculty-to-student ratio ensures that classes are small which enable students to receive individual attention to help them prepare for transfer.

Students who wish to pursue degrees in pharmacy, physical therapy, medicine, and other advanced medical degrees should consider the Mathematics/Sciences Concentration in the Arts and Sciences degree program at Garrett College.
