

Did you know you can  
earn college credits  
*while in high school?*

# Dual Enroll

## What is high school dual enrollment (HSDE)?

Garrett College partners with Garrett County Public Schools (GCPS) to offer dual enrollment options where GCPS students can earn college credit while still in high school. Students may select from a variety of dual enrollment courses, many of which will also satisfy high school requirements. Students who qualify for dual enrollment degree programs have the opportunity to concurrently earn both a high school diploma and an Associate degree from Garrett College. Your goals determine which option is best for you.

## Why dual enrollment?

- Increase the likelihood to attend and complete college
- Be better prepared for college both academically and socially
- Save money on college tuition
- Earn a college degree faster

**Laker Institute**  
DUAL ENROLLMENT

**What is the  
Laker Institute  
program?**

Qualifying rising freshman and sophomores may choose a Laker Institute pathway that would allow them to earn an Associate degree from Garrett College at the same time as their high school diploma. Students begin by taking a few introductory courses in their freshman and sophomore years and expand to a full-time course of study by their senior year. Interested students should contact their guidance counselors for more information.

## Who can take dual enrollment courses?

GCPS students may enroll in courses beginning in their freshman year. Students must meet the requirements set forth in the GCPS Strategic Enrollment Planning Guide (SEPG).

## What is the cost?

Thanks to the collaborative efforts of Garrett College and Garrett County Public Schools, along with support from the Garrett County Scholarship Program, dual enrollment options are available at no cost to GCPS students. This includes tuition, course fees, and textbooks. Limitations may apply.

## Where are courses offered?

**Courses are offered through a variety of methods:**

- In person at the high school (taught by Garrett College instructors)
- In person at the high school (taught by GCPS teachers)
- Garrett College campus
- Online (synchronous and asynchronous)

## How do I enroll?

Students should indicate interest in HSDE courses while preparing their high school schedules with their guidance counselors. Depending on high school gpa, some students may need to complete placement testing to determine eligibility. To begin the registration process, contact [dualenrollment@garrettcollege.edu](mailto:dualenrollment@garrettcollege.edu).
