Students must have a GPA of 2.2 in all MAT and PHY courses in order to be admitted directly into the Physics program upon transferring to West Virginia University.

The required Areas of Emphasis (AoE) have differing prerequisite and required courses, some of which can be completed at Garrett College. Consultation with an academic advisor within the Eberly College Undergraduate Affairs Office is recommended to ensure appropriate course selection.

Area of Emphasis: Students completing a Bachelor of Science in Physics must complete an Area of Emphasis selected from Applied Physics, Biophysics, Computational Physics, Materials Science, Medical Physics, Physics Teaching, Professional Preparation, or Space Physics. The Professional Preparation Area of Emphasis is the typical plan of study for a B.S. degree in physics.

Students transferring to West Virginia University with an Associate of Arts or Associate of Science degree will have satisfied the General Education Foundation requirements at WVU.

Students who have questions regarding this articulation agreement or the transferability of coursework may contact the WVU Office of the University Registrar. All other questions should be directed to the WVU Office of Admissions.

The above transfer articulation of credit between West Virginia University and Garrett College, is approved by the Dean, or the Dean's designee, and effective the date of the signature.
